Wheelchair Securement Systems

Hide-A-Way Wheelchair Securement System

- The industry's only securement system in which the restraints are fully-integrated into the floor -- freeing up valuable floor space and increasing passenger capacity.
- Allows vehicle operators to mix and match passenger wheelchairs with non-wheelchair seats in a blink of an eye!
- Accommodates both wheelchair and non-wheelchair passengers.
- Lowest profile -- no obstructions.
- Passengers seats, which fold up, can be installed over the restraints.
- Maximizes floor space.
- Fits transit, para-transit and mobility vehicles.
- Foot-activated, making it easy to use. Eliminates guesswork.
- Self-locking and self-tensioning retractors.

Standards

AMF-Brunns of America's Hide-A-Way Wheelchair Securement System meets all applicable regulations.

ABOUT AMF-BRUNS

AMF-Brunns of America is a global market leader in the field of vehicle technology for wheelchair passengers. Our company expertly combines state-of-the-art technology with skills accumulated from nearly 60 years' experience in the special needs industry.

We manufacture wheelchair securement products, occupant restraint systems and associated equipment for the safe transportation of special needs people. Our product leadership and focus in providing safe, flexible and leading edge solutions for wheelchair passenger travel speak for itself.

We have been credited with many industry firsts, including development of the first wheelchair safety systems and wheelchair anchoring system.
