

eFutureSafe Head & Backrest / Seatbelt Anchorage

HEAD & BACKRESTS: POWERED

eFutureSafe Head & Backrest / Seatbelt Anchorage

- Drivers with upper extremity issues may be able to drive safely and comfortably.
- Hand-control adjustment feature allows customized head, back and neck adjustments.
- Turns inward towards the vehicle wall when the vehicle is without a wheelchair. A single seat can easily be fitted to the empty position.
- With two quick movements, eFutureSafe locks behind the wheelchair driver to provide maximum security.
- Patented design meets all applicable regulations.
- Includes integrated certified 3-pt shoulder belt.
- Can withstand 15G rear and 20G frontal collisions.
- Crash and sled tests show product maintains the highest level of safety in a rear impact.
- Emergency release.
- Can be side-mounted or floor-mounted.
- Meets all applicable regulations.
- Compatible with AMF-Bruns restraint systems.
- Connects to the vehicle's B-pillar and utilizes the OEM shoulder belt.

Vehicle Installations

The Head & Backrest systems have been installed in the Honda Odyssey, Town & Country, Ford Explorer, Toyota Sienna, Dodge Chrysler and Caravan. Please inquire for a complete list of vehicles.

About AMF-Bruns

AMF-Bruns of America has been a global market leader in wheelchair & occupant securements for over 60 years. We manufacture wheelchair securement products, occupant restraint systems and associated equipment for the safe transportation of people in wheelchairs. We invented the world's first 4-point retractor wheelchair anchoring system. Today we service customers in more than 50 countries throughout North and South America, Australia, Asia, Middle East and Africa.
